About DC-Net Pricing

Established by the District of Columbia government and run by the Office of the Chief Technology Officer (OCTO), DC-Net operates a fiber optic based metropolitan area network that provides fully redundant, secure, high-speed transport of data, voice, video, and wireless services for government purposes throughout the District of Columbia.

As you will see by our Pricing Guide, DC-Net has a full offering of up-to-date voice, video, and data products and services at a cost savings over commercial service providers.

For further product and service information and for help in processing orders, please contact the DC-Net Support Services unit.

Phone: 202-715-3733 (M-F 8:30 am to 5:30 pm)

Email: dcnet.customercare@dc.gov

For more information about DC-Net, visit our public website at: <http://dcnet.dc.gov>.
