

Web Conferencing

The DC-Net Web Conferencing solutions give you the power to conduct live online meetings, presentations, and interactive training sessions for group sizes of up to 1000 users. Take advantage of integrated voice and video, and access meetings via PC or Mac and iPhone, Blackberry, or other mobile devices. DC-Net Web Conferencing is a managed service; it features Cisco-based 24/7 technical support [1 (866) 229-3239] and online training in your monthly service.

In a web conference, each participant sits at his or her own computer and is connected to other participants via the Internet.

Benefits

- **Online meetings** – Put an end to frustrating conference calls and back-and-forth emails. Accomplish more in less time.
- **Presentations** – Make sales presentations, demonstrate applications, and even review contracts online.
- **Live interactive training** – Train customers, partners, and employees anywhere in the world. Record for on-demand training, too.
- **Large online events** – Get your message out to more people faster; perfect for targeted webinars, online press briefings, any type of communications.
- **IT helpdesk support** – Support distributed users from any location. Remotely control desktops to see and fix issues in real time.
- **Customer support** – Troubleshoot and resolve remote customer problems as if you were on site.

Document sharing and video support are standard features
